AUDITED

HIGHLIGHTS FROM THE TPM IN THESSALONIKI

The AUDITED consortium gathered in Thessaloniki, Greece, for the latest Transnational Project Meeting, hosted by the Aristotle University of Thessaloniki (AUTH) on October 14–15, 2025. Partners SGS, AUTH, and INSIGNIS met to review the project's progress and align efforts for the next implementation steps.

The central focus of the meeting was the **development and validation of the EQAVET-ISO 21001 Online Auditing Tool**, a key innovation designed to support quality assurance in education through digital auditing processes.

The meeting also provided an opportunity to:

- Finalize the design specifications and functional requirements of the tool.
- Present a technical demo and discuss usability improvements.
- Plan the validation phase, including internal and third-party audits.
- Outline dissemination activities and next steps for the tool's publication.

Thank You!

We warmly thank AUTH for hosting the meeting and all partners for their contributions. As AUDITED moves into a key phase of validation and refinement, we look forward to sharing more results with you soon.
